

Qualified and competent? Join us*

FAMMP is a non-profit association for individuals working in the mining sector and having the professional qualification and work experience to be able to function as Competent Persons, also called Qualified Persons.

Our purpose is to ensure the highest standard possible in public information regarding exploration results, mineral resources and mineral reserves. We are working to guarantee the information is comprehensive, transparent, unbiased and quality assured to protect public, shareholders and investors from misleading or incorrect information. We also decide on disciplinary measures for members when the standards are not met.

FAMMP is a member of the Pan-European Reserves and Resources Reporting Committee, PERC, and we also educate in the PERC Reporting Standard and general competence development programs regarding exploration, mineral resources and mineral reserves.

Currently, FAMMP has members from Finland, Norway and Sweden. We are welcoming new national and international members to join us.
